Placenta Accreta Spectrum 360°: All you Need to Know From Ultrasound Diagnosis to Delivery

Workshop

Learning Objectives:

Participants will be able to:

- 1- Master ultrasound techniques for early detection of placenta accreta spectrum.
- 2- Utilize ultrasound & doppler Techniques for the accurate diagnosis of PAS during pregnancy, including the identification of specific sonographic markers.
- 3- Utilize ultrasound and doppler imaging for enhanced PAS assessment.
- 4- Differentiate PAS from normal placentation and other placental abnormalities using ultrasound.
- 5- Integrate ultrasound findings into multidisciplinary management planning.

Workshop Conductors:

Dr. Salwan Al-Nasiry
Belgium

Dr. Hassan Gaafar
Egypt

Dr. Abdallah Adra
Lebanon

1st Come ... 1st Served
